Front light

Back light

Full side light

Upside light

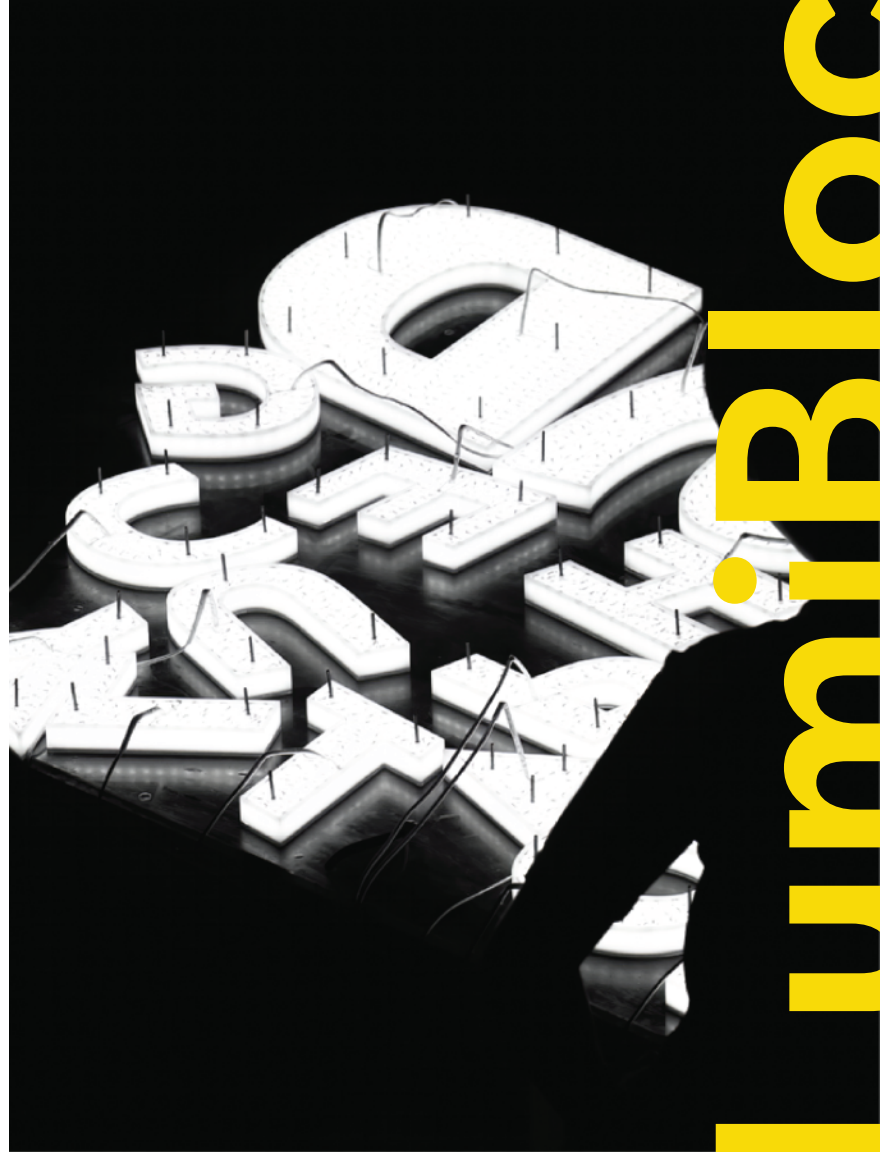

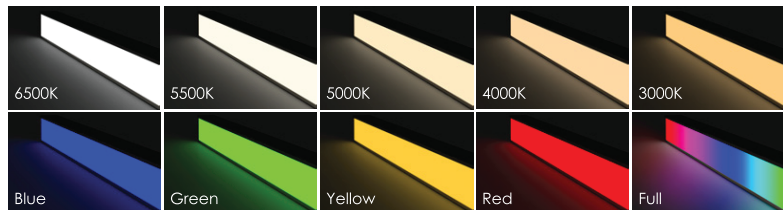

Front + Upside light

Back + Backside light

LEDs Colors

OSRAM  CREE  EPISTAR 

LumiMini

Perfect solution for thin stroke design.

Beveled letters allow thinner edge and more creative fonts/shapes.

Beveled Edges

The beveled edges of the letters are designed to be barely visible, adding a subtle aesthetic touch to the signage.

Smart Solution

The slim profile, embedded LEDs, and beveled edges provide a sleek solution that harmonizes performance and style.

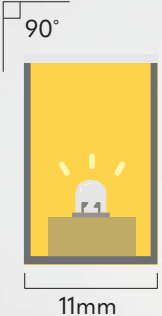

Comprehensive Design

LumiMini letters offer a visually appealing signage solution with thin strokes, homogeneous lighting, and a refined finish, resulting in an elegant display.

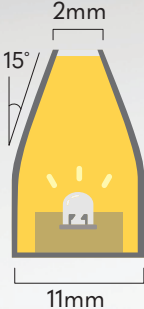

LumiMini

Our minimum stroke width
